

# GUIDEBOOK - ILIAS:

---

Here we go, you will get to know our online learning platform **ILIAS!**

## What is ILIAS?

ILIAS is the e-learning platform of the University of Konstanz. Electronic learning material from all departments and other institutions of the university is provided on this platform. While access to some courses is available to everyone, for all other courses you have to login with your university account.

## Please activate your ILIAS.

What you need to do so, is your institutional login information (your @uni-konstanz.de e-mail address and the corresponding password).

Please use the following link: [https://ilias.uni-konstanz.de/ilias/login.php?cmd=force\\_login&client\\_id=ilias\\_uni&lang=en](https://ilias.uni-konstanz.de/ilias/login.php?cmd=force_login&client_id=ilias_uni&lang=en)

## Why is ILIAS useful?

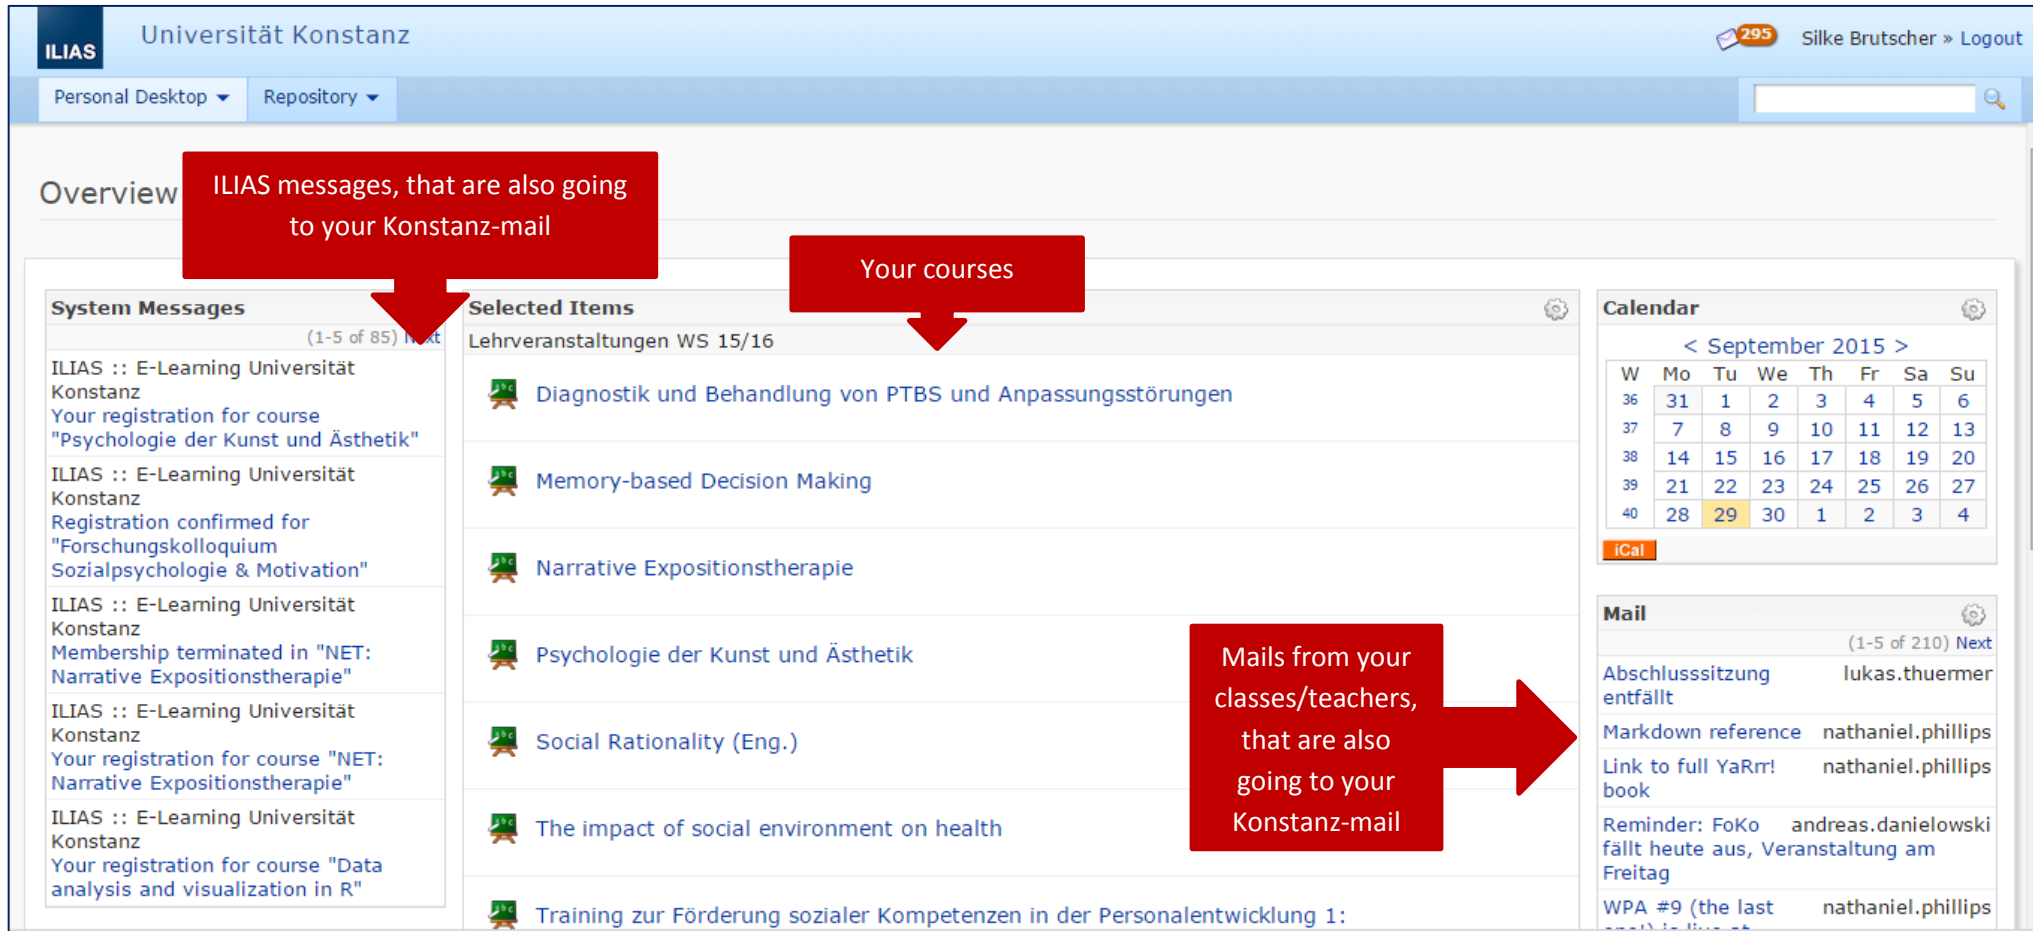

After you have logged in for the first time, your ILIAS account is activated. Then our technical support can give you access to the corresponding "virtual rooms" of the classes you will attend during your studies at University of Konstanz.

ILIAS is really convenient, especially for teachers to contact their students, because your institutional e-mail address is linked to ILIAS. Therefore it is important that your name is registered there, so that you will receive information about your classes.

The following two pages roughly show you the **main surfaces of the program**, your personal desktop and what the surface of a course looks like.

ILIAS is pretty straight forward, **in case of problems/questions contact the help service:** [ilias-support@uni-konstanz.de](mailto:ilias-support@uni-konstanz.de)

## The ILIAS Surface "Personal Desktop"

The screenshot shows the ILIAS Personal Desktop interface. At the top, there is a navigation bar with 'Personal Desktop' and 'Repository' tabs, and a search bar. The main content area is divided into several sections:

- System Messages:** A list of messages from ILIAS, including course registrations and membership terminations.
- Selected Items:** A list of courses for the current semester (WS 15/16), such as 'Diagnostik und Behandlung von PTBS und Anpassungsstörungen' and 'Memory-based Decision Making'.
- Calendar:** A calendar for September 2015.
- Mail:** A list of emails, including 'Abschluss Sitzung entfällt' and 'Markdown reference'.

Red callout boxes with arrows provide additional information:

- A box pointing to the 'System Messages' section says: "ILIAS messages, that are also going to your Konstanz-mail".
- A box pointing to the 'Selected Items' section says: "Your courses".
- A box pointing to the 'Mail' section says: "Mails from your classes/teachers, that are also going to your Konstanz-mail".

When you click on one of your courses
